

Young Gentlemen's Club Origin

The Young Gentlemen's Club is a mentoring organization designed to help young males to develop into young gentlemen who will carry themselves in a gentlemanly manner. While participating in this organization, the young gentlemen will be discipline, respectful, and responsible. They will excel academically in their class work, learn to set personal goals and to work hard to achieve their goals, become accountable for their behavior during school and in the community, and become productive members of society. The program will also give them the opportunity to make better career choices. The Young Gentlemen's Club will maintain a higher standard as a model for other students, clubs, and peers.
